## *Sur vival*

*delivery end of 2023*

5x52'

*Sur Vival* is a series that reveals new ideas, new technologies, practices and habits that are not only being used to face the environmental and socioeconomic challenges of the future, but are also economically viable in the present.

## *Women at conservancy*

1x45'

From the treetops of the Amazon to the desert valleys of the Caatinga, researchers stand out for their commitment and the success of their projects aimed at conserving endangered species of Brazilian fauna. In a world of physical, logistical and political challenges, researchers continue to take the lead in study programs in the most remote parts of Brazil.

## *Paris, capital of gastronomy*

**4K** 1x52' or 1x90'

Paris is a city of history, monuments, feelings... but it is also a land of cafés, bistros, brasseries and restaurants! If gastronomy has existed for millennia, it is in the French capital that it took its modern form. The City of Light is undoubtedly the gastronomic beacon of the world. How did Paris become the cradle of gastronomy? How does the city manage to stay on top today? This documentary goes back in time in search of the tastes and flavors that make Paris the capital of gastronomy.

**Lawrence of Arabia, the oriental dream**  
1x52'

In 1909, Thomas Edward Lawrence traveled through Lebanon and Syria to study the Crusader castles. Seven years later, he returned to the Middle East as an agent of the British secret services, in order to unite the chiefs of the Arab tribes... A century later, the travel writer Sylvain Tesson went by motorbike to the places once crossed by Lawrence, from Aqaba, Jordan, to Lebanon, via Syria.

**Champion-Chips**  
1x52'

A competition full of flavors, through which fries, a legendary and popular dish, are put in the spotlight and challenge participants from the four corners of the world. They compete against an exceptional jury, in several categories, intended to challenge the know-how surrounding the preparation of fries. This event is an opportunity to learn more about the history of fries and their preparation in various countries.

**Unveiling the amazon highlands**  
delivery end of 2023  
1x52'

A team of scientists go on an expedition to a yet unexplored area of the Brazilian Amazonia in order to discover new animal and vegetal species to better protect these ecosystems.

**Pastry for everyone**  
44x26'

You will learn how to make a variety of desserts made by Carlos Fernandes, award-winning Pastry Chef. From traditional Portuguese sweets like sponge cake to the most incredible pies like the coffee, hazelnut and toffee pie, or the pear, almond and spice pie. The young pastry chef teaches how to master a multitude of techniques so that everyone can enjoy pastry delicacies at home.

**Shapers of tomorrow - Season 2**  
12x52'

The Shapers of Tomorrow are back for a second season. Scientists, engineers, researchers, architects, teachers, they are all working towards a better future whether it is in health security, transport, environment, ... From great discoveries to new technologies, they are behind the discoveries and inventions that will design our future life to make it brighter, smarter and more sustainable.

**Chef's friends**  
44x26'

The host, Chef Chakall, opens the doors of his house to receive friends and special guests, in a relaxed and fun atmosphere. Between a good conversation, the Chef prepares a menu with the precious help (or not) of his guest. The Twist? There is no predefined menu. It is the guest of each episode who challenges the Chef, choosing three surprise ingredients to make the menu.

**A year at the Pic du Midi**  
1x52'

The Pic du Midi de Bigorre is a multi-faceted mountain, an old lady whose history is rich in several lives and whose aura dominates an entire territory. With the installation of a scientific platform, then an astronomical observatory, with its recent opening to the general public, it has been able to constantly evolve and reinvent itself. To portray this mountain is to hear the science that is practiced there, the history that is transmitted there, the tourism that it engenders, the poetry that emerges from it.

**Our cuisine**  
22x26'

Winner of the 2021 Multimedia Award by the International Academy of Gastronomy, Our Cuisine goes through traditional recipes of Portuguese gastronomy guided by Maria José Sousa, a lady who shares all the best stories behind each recipe.

**Cinderella 24**

## Whiskey, a country story

1x52'

The film takes us to discover the secrets of whiskey production. Barley, rye, or even spelled whiskey. A whiskey from our terroirs and our landscapes, infinitely creative, carried by Léo, Christophe and Frédéric, three passionate peasant-distillers, a little unconscious and eccentric and certainly visionary. They take us into the incredible history of whiskey through the doors of their farms.

## Customize your home

33x26'

Sofia Paraplúie has the key to make your home different. Lover of Nordic decor and very creative, our expert teaches us DIY ideas to get your dream home. Different proposals to make with your own hands, inspired by the activities of the artisans that we will visit throughout Portugal, in each episode.

## DIY with Joana

30x26'

We will follow the design projects created by Joana, architect and digital content creator, in her home environment and framed in her family context. In each of the episodes Joana will idealize and carry out two projects – creating an object from scratch and giving a new face to an old object – and showing how it is possible to create useful and beautiful pieces, following the Do It Yourself philosophy.

## Legend hunters

10x26' or 20x10'

Are there alligators in the sewers of Paris? Can we get stuck when we squint? Can we fly away with birthday balloons? Is there a product that colors pee in swimming pools? They have been running around the world for years, being exchanged in playgrounds, sometimes used to scare each other and yet they are false: urban legends! In the form of an investigation conducted by a band of Legend Hunters, each program tells a legend, explains where it comes from and why it is false, even if it is sometimes based on some real facts.

## Kids' lab

37x45'

Between received ideas and real scientific discoveries, Kids' lab is an opportunity for the younger and the older to learn while having fun! Everyday inventions, food secrets, the importance of hygiene or the amazing life of animals, science can be child's play. Our two hosts will explore our society through scientific experiments within everyone's reach!
